

6 DAY GALAPAGOS CRUISE C ABOARD CATAMARAN ECO GALAXY

A 6 day cruise exploring the Galapagos islands. Leaving from Santa Cruz and finishing in San Cristobal.

ITINERARY

Day 1 BALTRA ISLAND – SANTA CRUZ ISLAND: BACHAS BEACH

Arrive to Baltra airport Reception at airport. Transfer IN. Welcome on board EcoGalaxy Cruise. Welcome drink and lunch.
BACHAS BEACH: This beautiful beach is located in the north of Santa Cruz Island; the beach is one km long. The site was named during WWII (World War II) when the American army left two barges on the beach. The early colonists couldn't pronounce barges correctly, so they called the area "Bachas".

Day 2 SANTIAGO ISLAND & BARTOLOME ISLANDS

SULLIVAN BAY: wet landing and hiking. Description of the place: all the road and the island is composed of lava flows that still they are virtually without eroding and they cover an extensive

info@small-cruise-ships.com

area, lava pohoehoe or of cords, hornitos, mollugo, this plant grows in the lava. Lava Colonizers. Snacks and refreshing beverages expect for you. Lunch BARTOLOME ISLAND: Dry landing, wet landing for the beach. Activities on this island include: walking, swimming, snorkeling, and photography. We will follow a path to the top (114m) where we can see pioneering plants such as tiqulia, chamaesyce, and scalesia. The island has been formed by cones, lava pipes where lava once flowed. Following the wet landing at the beach, we will follow a path through mangrove swamps and sand dune vegetation, to the south beach. At the north beach, guests can enjoy swimming and snorkeling. From the top of Bartolome, we will be able to see the islands of Santiago, Rabida, and Isabela. We will see penguins in the Rock Pinnacle. Dinner

Day 3 SANTA CRUZ ISLAND: HIGHLANDS & CHARLES DARWIN STATION

HIGHLANDS OF SANTA CRUZ: our first visit is HIGHLANDS OF SANTA CRUZ, where we have a trekking and we will find the giant tortoises in their natural habitat, this is a natural spectacular. For this visit we recommend to use sport shoes, long pants, raincoat, hut and sun block. Lunch. Charles Darwin Station: is located in the main port on Santa Cruz Island; we will take a private bus to the entrance of the breeding center where we will see tortoises and land iguanas in captivity. This center is the main breeding site on the islands. Animals that were in danger of extinction on the various islands are maintained in captivity. Thanks to the dedicated work of several institutions, some species are being saved. Here lived Lonesome George, the famous last survivor of the giant tortoise species found on Pinta Island. Dinner.

Day 4 FLOREANA ISLAND

PUNTA CORMORANT: wet landing, snorkeling and short trekking. This point is located at west of Floreana Island and it is famous for its dark green beach (due to the great quantity of olivine crystals). You can see many marine invertebrates, as well as sea lions, sea iguanas, the frigates and pelicans. Second visit: DEVIL'S CROWN: Activities in this place: panga ride and optional swimming. Enjoy a panga ride around a small island, a satellite islet of Floreana Island. Here, we will find a group of rocks that resemble a Crown due to the constant erosion caused by the sea. It is one of the better places to snorkel (shallow diving) in the interior and around the crown. Excellent visibility allows guests to admire a great variety of fish and sea animals. Lunch. POST OFFICE (Mail Bay): Wet landing. Activities: short walk, swimming, snorkeling, explanation of the mail system. Description: Mail Bay is located on the north side of Floreana Island. Captain James Colnett installed an empty barrel to be used as a post office for the whaling fleets that stopped at the Galapagos Islands. You can leave postcards to your friends and relatives here and/or pick up mail to deliver. Back at the ship, Delicious snacks and beverages are waiting for you.

Day 5 ESPAÑOLA ISLAND

SUAREZ POINT: Dry landing. Activities: Walking, sight-seeing. We recommend sports shoes, hat or cap, and sunscreen. There is no color more amazing and outstanding in this tropical desert island, than that of the blue-foot boobies. These birds have an impressive form of "greeting" and it is a real thrill to see their mating dance. The blue-footed booby can be seen on several of

the islands as nesting grounds and feed are located in several coastal locations. The albatross, an aristocratic bird weighing up to four kilograms, can be observed here. One of the largest birds of the islands, approximately 12,000 couples nest on Espanola Island and a smaller number nest on Silver Island, near mainland Ecuador. This species is considered endemic to this island; during our walk, we will observe these fantastic birds while taking in the beautiful landscapes offered by this island. It is important to note that albatrosses will not be seen between January and March (non-breeding) season. We will also see colonies of marine iguanas, zayapas, masked boobies, finches, Espanola cucuves, and seagulls unique to the islands. Our walk will be on lava rock where we will be able to see lava tubes. Red mangroves are found here. Delicious snacks and fresh beverages are waiting for you on the ship. Lunch. GARDNER BAY: wet landing, activities for this visit: short walk, swimming, snorkeling, and observation of seal colony. The sea lion is one of the animals in Galapagos which gets the total attention of the visitors in the Galapagos: they are curious and playful, but at times aggressive; they are nice and loving, but also lazy. In Gardner Bay, we are going to find many of them relaxing on the beach enjoying the sun. In addition to observing these fascinating animals, while snorkeling, we will be able to swim with sea lions, sea turtles, a diversity of tropical fish, marine iguanas, etc. We will return to the ship and sail to Gardner and Osborn Islets. Dinner.

Day 6 SAN CRISTOBAL ISLAND: INTERPRETATION CENTER – TRANSFER OUT

INTERPRETATION CENTER: Dry landing. This center is location in the main port. After breakfast, our first visit is to the

Interpretation Center of San Cristobal. This modern and sophisticated architectural space was designed for the natural interpretation of the Galapagos. You will learn about the volcanic formation of the islands, the evolution of the species, the history of human settlement, and complex systems and management models. Transfer out.

Please Note:

This itinerary is subject to change without notice; due to seasonal changes, weather conditions or Galapagos National Park regulations.

YOUR SHIP: ECO GALAXY

YOUR SHIP: Eco Galaxy

VESSEL TYPE:

LENGTH:

PASSENGER CAPACITY:

BUILT/REFURBISHED:

The EcoGalaxy is a comfortable catamaran built in Guayaquil in 2014. It was built according to ecological parameters that reduce the negative environmental impact of tourism in the Galapagos Islands. With 8 double cabins (4 on the upper deck, 4 on the main deck accommodating up to 16 passengers), panoramic windows, room safes, air conditioning, private wc-showers, this catamaran is one of the most comfortable cruises in the Galapagos. Some of the boat characteristics that reduce the negative environmental impact of tourism: Operates on low fuel consumption. Continuous self-cleaning through purifiers that allow the fuel to be recirculated. Energy-efficient LED lights are used for the illumination of the ship. Uses biodegradable cleaning products. Air conditioning and cooling systems that automatically adjust according to weather conditions. Fresh water system. There is a system adjustable pressure tank which provides for the efficient saving of fresh water inside the boat. Salvage and Security Equipment - 2 survival rafts for 20 passengers each - 1 survival raft for 8 passengers - 30 life jackets, type A - 25 life jackets, type B - 6 lifebuoys with nylon rope - Fire axes and Fire hoses - CO2 extinguishers - flare light, hand lights, smoke signals and other

visual signals - Firemen suits, smoke signals. - One tank with its autonomous breathing equipment - First aid kit Upper Deck 4 Cabins, 1 Captain Cabin, 1 Guide Cabin, Bridge Main Deck 4 Cabins, 2 Cabins (bow), 2 Cabins (stern), Briefing Area, Coffee Station, Bar, Living Room, Dining Room, Boarding area Lower Deck Kitchen, Crew Dining Room, Cruise Director's Cabin, 2 Crew cabins, Machine Rooms, Laundry Bar & Restaurant Enjoy excellent food on board the EcoGalaxy Catamaran cruise. Our menu offers a variety of products from the Galapagos Islands. The menus are based on a balanced diet which includes carefully selected fruits, proteins and carbohydrates. Beverages included with the meals are soft drinks (not bottled) and juices. Meals are different every day and guests will enjoy a wide variety of foods. Breakfasts include fruits, sausages, cheese, and eggs prepared in a variety of ways. During the cruise, snacks will be served twice a day. When guests return from the excursions, special snacks and drinks are waiting that will surprise and delight them. We continually strive to satisfy our guests' requests. For those with food restrictions such as allergies, food intolerances, etc., be sure to note any allergies or specific diet requirements at the time of booking. Contact us for more information. Social Area The social areas are the perfect place to witness the many wonderful and unforgettable landscapes. In the spacious dining room, enjoy the delicious meals prepared by our professional chefs. While sailing in the Galapagos Islands, relax, read a book in the lounge or soak in the sun's rays on the sundeck. Activities Experience once-in-a-lifetime moments. Our guests will have the opportunity to enjoy the best of the Galapagos Islands during our adventure-filled excursions.
