## GREENLAND EXPLORER CRUISE - IMMACULATE NATURAL WONDERS

**IMMACULATE NATURAL WONDERS** As your Captain expertly navigates the sweeping fjords of Greenland, a world-class expedition team guides you on FREE Zodiac safaris and shore landings. Explore landscapes of rugged cliffs, immense glaciers and expansive tundra, keeping an eye out for whales, musk oxen, ptarmigans and other extraordinary wildlife. Immerse yourself in Greenland's heritage in the small village of Ittoqqortoormiit, where you can watch demonstrations of traditional handicrafts and admire displays of customary local clothing. Engage and connect with indigenous cultures, learning about the Inuit peoples who first inhabited Greenland. Trekking the remote corners of Svalbard - the Wildlife Capital of the Arctic - you reach unspoiled shores with an astounding splendor that makes its mark on the spirit. You may come across unexpected bursts of color throughout the landscape, as the Arctic summer brings forth a surprising number of wildflowers.

### ITINERARY

Day 1 Reykjavik, Iceland

In the southwest of Iceland near Faxaflói Bay lies the capital of the country, Reykjavik, simultaneously cosmopolitan and charming. The colorful houses on the horizon create a quaint scene that will make you want to stay forever. Kaleidoscopic views await you at the Harpa Concert Hall, a glittering, glass structure that perfectly exemplifies Iceland's modern design and will fascinate your inner architect. One of Iceland's most prominent landmarks is Perlan, originally a group of hot water tanks that was converted to a building that now hosts an

exhibition, planetarium, restaurant and observation deck, located atop Öskjuhlíð hill.

#### Day 2 At Sea

Spend the day on the high seas pampering yourself at the spa or enjoying some time on deck. Mingle with your fellow explorers and swap stories of your exploits, making plans for new ones together once you get to shore

#### Day 3 Fjords of Greenland - Captain's Choice

A once-in-a-lifetime adventure is yours to have on the largest island in the world, Greenland. At the very top of the world, it's renowned for its vast tundra, immense glaciers and deep fjords. From an aerial view, the systems link together like the roots of a massive tree and stretching coastlines are dotted with small islands. Landscapes include enormous icebergs and glaciers. Depending on the time of year, you may see polar bears hunt on the ice.

CAPTAIN'S CHOICE - Captain's Choice ports of call add to the sense of adventure and an element of surprise. Your ship's captain will sail around changing weather conditions as needed and take you to the best areas for wildlife viewing.

#### Day 4 Ittoqqortoormiit, Greenland

The name "Ittoqqortoormiit" means "Big-House Dwellers" in the Eastern Greenlandic dialect. Very few visitors make the trek here, as the winters are long, and the sea is frozen for nine months of the year. Ittoqqortoormiit is located at Scoresby Sound and with its side fjord is the largest fjord complex in the world, as well as the world's longest fjord. Within its borders is the tallest mountain in the Arctic region, the two-mile-tall Gunnbjorn Mountain. During early spring, when the sea ice is still thick, yet the sun is high in the sky, many of the local people go out for a weekend on dog sledding trips.

#### Day 5 Exploring Greenland-Captain's Choice & Fjords of Greenland - Captain's Choice

Making possible landings amid Greenland National Park, the largest in the world, you may find yourself within one of the country's largest fjord systems. Plentiful with wildlife from belugas and narwhals to seals, walruses, caribou, musk oxen, and even possible polar bear sightings, it's a wonderland of nature. Due to its size and limited accessibility, Greenland National Park's only residents are personnel from meteorological stations and the Danish Armed Forces.

Even in one of the most isolated regions of the Arctic, there is still the captivating history of a pioneering past. Our expedition leaders, along with the captain and onboard pilot, will determine possible landings each day for all-out explorations. Wildlife abounds throughout the archipelago of Svalbard, such as puffins, reindeer, Arctic terns and foxes. An expert photographer will help you look out for the perfect photo opportunity of these animals, but especially for the elusive polar bear. As Zodiac cruises may bring you closer to glaciers, keep your eyes on the water for whale fins.

Day 13 Longyearbyen (Svalbard), Norway

Longyearbyen is in a valley on the shores of the idyllic Adventfjord, surrounded by steep mountains and several glaciers. There are only around 25 miles of roads in this village, which is divided into several neighborhoods, including the town center and Nybyen (New Town), which consists of charming miners' barracks constructed after the war, as well as guest houses, a restaurant and gallery, and not to mention beautiful views of the landmark mountain, Hiorthfjellet. Be sure to visit the Svalbard museum as a break between the plethora of activities like summer dogsledding or cruising to the abandoned Russian city of Pyramiden
