Local Brazilians flock to the sweeping beaches at Natal. As the capital of Rio Grande do Norte state, Natal has developed quickly to cater for this style of tourism. However, it has history. In 1598 the Portuguese constructed Fortaleza dos Reis Magos. The fort's strategic location is at the mouth of the Rio Potengi, and near the easternmost and thus closest point of South America to Europe and Africa. Beyond the modern tourism strip is an older Natal with the governor's palace, mayor's office and Andre Albuquerque Square. American architectural influences persist from the time the city was a base during World War II. The city encircles a natural park of urban forest and sand dunes. The 16th century Portuguese Fort Reis Magos contains details of battles among the Portuguese, Dutch, and French. The craft centre demonstrates lace tatting and Capoeira, the Afro-Brazilian martial art developed by slaves in the 16th century. Capoeira combines dance, acrobatics and music, and often involves hands on the ground and inverted kicks. Try it on land, not the ship. Dramatic windswept bare sand dunes lie in and around Natal. The dunes at Genipabu are ever changing as the winds alter direction and speed. Dunes transform and are never in the same place for long. Amongst the dunes are clear lakes and pockets of flora. Dune buggies allow you to explore the dunes in either a 'unemotional' sedate style or an 'emotional' (read, scary adrenaline rush) style. Pitanguí Lagoon allows the survivors to swim or calm down.

[Day 3 Day at sea](#)

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

[Day 4 Salvador de Bahia](#)

A multicultural, multifaceted place, discover brilliant beach life, airy colonial plazas and infectious samba rhythms as you explore this Brazilian melting pot. Sit on a scenic peninsula, idyllic beaches coat the city on three sides, and a historic fort sits just offshore, watching the waters menacingly. One of the world's biggest carnivals is thrown towards the end of February, but don't worry if you miss it - there's always an excuse to celebrate something in Salvador de Bahia. The old town - with its lemon and duck egg blue colours - rises above the city, peppered with gold-leaf flourishes and carved historical churches. Pelourinho street is one of the town's most dazzling - a picturesque gathering of bright hues and uneven cobbled streets. Bahia's capital and largest city was Brazil's first capital, built on the backs of slaves imported from Africa. Since then the cultures have fused to create a vibrant Afro-Brazilian cocktail. Moqueca is the local flavour here, a slow-cooked stew of coconut milk, seafood and bell peppers, its a creamy and delicious indulgence with a chilli kick. Enjoy a spot of relaxation on the city's beaches - and see a relatively rare phenomenon in

Brazil - sunset dipping over the sea's waves, on the sands of the westerly facing Porto da Barra. Or, escape the crowds and recline below swaying coconut palms on the golden sands of beaches reaching up to the north, which are some of Brazil's most picturesque and secluded.

### Day 5 Porto Seguro

Porto Seguro - loosely translated as safe bay - is known as "Brazil's birth certificate". The port was the first place that Alavares Cabral and his crew set foot on while on their way to India in 1500. This makes the town the oldest in the country at 500 years. With three churches and around 40 buildings (both private residential houses and public institutions), restored by the state government for the 500th anniversary celebration of Brazilian discovery, Porto Seguro wears its age well.

### Day 6 Abrolhos Archipelago

Just 70 km east of Nova Viçosa, Bahia are the five islands forming the Abrolhos Archipelago. These islands are part of two reef systems which run parallel to the coast and cover an area of some 6,000 km<sup>2</sup> -Brazil's most extensive reef system. Two parts of the reef system including the archipelago have been declared a marine park (Parque Nacional Marinho dos Abrolhos) covering 913 km<sup>2</sup>. A lighthouse and small Brazilian Naval station are on Santa Barbara, but of the five islands only

Siriba, one of the two westernmost islands, can be visited. A track runs for some 1,600 meters around the island, permitting to see the fauna, flora and geology. The Abrolhos Archipelago is the Southwest Atlantic's largest reproduction area for humpback whales which tend to be there between July and November. Loggerhead and green sea turtles will start to come in November to lay their eggs on the few sandy beaches, and hawksbill turtles have also been seen. Masked and Brown Boobies, Magnificent Frigatebirds, Red-billed Tropicbirds, Sooty Terns and Brown Noddies have all been recorded as nesting on the islands.

### Day 7 Day at sea

So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

### Day 8 Rio de Janeiro

Lie back on the golden sands to soak up the extraordinary setting - or watch on as muscled cariocas - locals - perform effortless athletic feats, during casual volleyball matches. A trip up to Rio de Janeiro's iconic art-deco statue of Christ the Redeemer is, of course, a must do - offering an extraordinary

view of the city rolling out before your eyes. You'll also want to take a cable car to swing by the top of Sugarloaf Mountain, which juts sharply into the sky from nowhere. Brazil's second largest city moves to an infectious samba beat, and the famous thumping Carnival floods colour and floats down its streets each year. Of course, Rio is also a city of sharp cultural contrasts - offering fun in the sun for some, while life goes on very much as it always has for others. Take a guided tour, led by a resident, to see the conditions inside these complex tapestries of colour and chaos first-hand. Tijuca National Park, offers easy-to-access tranquillity, immersing you in dense forestry and whopping birdsong. Later, watch the fiery shades of sunset spread across the sky in the city's oh so famous evening light show. With so much to offer, you'll quickly learn how Rio earned its other name 'Cidade Maravilhosa' - The Marvellous City.

### Day 9 Paraty

Surrounded by dense swathes of rainforest, the gorgeous 18th century architecture of Paraty sits in a spectacular location on Brazil's verdant Costa Verde. The pedestrianised town is a whitewashed canvas, splashed with bold blocks of primary colours, which shine above cobbled streets. Paraty and four nearby protected natural areas of Brazilian Atlantic Forest are a UNESCO World Heritage Site for their cultural and natural values. Gold is a key theme for Paraty and the region. Gold was stripped from inland mines and brought to Paraty's port for export. Mules trains transporting the wealth reprovisioned at the 17th century Bananal Farm, with its water driven sugar mill,

located 8 kilometres (5 miles) from Paraty. Gold is irresistible. English and French pirates hiding out in the nearby village of Trinidad raided the gold ships leaving Paraty. Now the modern gold is the colour of the beaches, where rainforest cascades from the hills. There are many ways to experience Serra da Bocaina National Park, whether by foot, hoof or paddle. The sounds of birds in the rainforest will accompany you as you traverse trails to gushing streams or cross the sheltered waters of Paraty Bay to tropical islands. Birds are prolific around Paraty. The Atlantic forest has 120 endemic (not found elsewhere) species of birds in addition to more widespread types. Brilliantly coloured tanagers are highlights, as are hummingbirds, toucans and parrots. When asked 'what is your favourite bird'? Answer with 'the next one'.

### Day 10 Ilha Grande

Ilha Grande, or Large Island, is located on the Costa Verde, "Green Coast," perhaps the most enchanting region of the Rio de Janeiro state. Ilha Grande rests near Angra dos Reis Bay with some 360 exotic tropical islands and white sandy beaches, hundreds of tiny ports and countless options for boating. The beaches, nestled between mountains and islands, are mostly small and isolated, with calm, clean waters. The climate on the Costa Verde is an attraction in itself; warm, lazy weather with a cooling seabreeze takes the edge off otherwise hot summer days. A call at Ilha Grande provides the opportunity to explore the beauty of this enchanting island. Guests not participating in the organized excursion will have the opportunity to take a

tender to the beach and laze in the sun or enjoy watersports activities. Pier Information The ship is scheduled to anchor. Guests will be taken ashore to the beach via ship's tenders. Shopping Several stalls along the beach offer local art and craft items. The local currency is the real. Cuisine Two rustic restaurants offer assorted beverages and fried fish, a local favorite. Other Sites Other Options A beautiful beach invites swimming and snorkeling. Rental of watersports equipment is available along the beach. Important: Guests renting watersports equipment do so at their own risk.

### Day 11 Day at sea

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

### Day 12 Porto Belo

Beautiful beaches attract many to Porto Belo, but there are other natural attractions. The Atlantic forest of the Brazil coast has a great variety of plants and birds, including many found nowhere else. It is second only to the Amazon in diversity. But most of the forest has been cleared for agriculture. Trekking in

the surviving forest near Porto Belo puts you amid the super-rich and rare ecosystem. Azorean culture has become a source of pride to locals in recent years. Between 1747 and 1756, Portugal sent nearly 7500 immigrants from the Azores and Madeira to the state of Santa Catarina. They were enticed with money, land, agricultural tools, seeds, livestock and weapons to populate and secure the Portuguese colonial territory from local indigenous people and rival Europeans. They settled and flourished in settlements such as Porto Belo for ten generations. You can still find Azorean cultural influences in cuisine, holy ghost festivals, colourful boats and architecture seen at Praça dos Pescadores (Fishermen's Square) in Porto Belo. German influence is strong in the southern Brazilian state of Santa Catarina. From the early 19th century, Germans emigrated and made up over 50% of immigrants to the state. Adapting to tropical conditions was hard, but many coped with farming and excelled in producing children. Today towns like Blumenau maintain a strong German influence in architecture and festivities, and especially in the essential tradition of locally brewed beer and classic German sausages.

### Day 15 Montevideo

### Day 16 Buenos Aires

Poetic, worldly, and jam-packed with historical intrigue, Uruguay's refined capital is a city of culture, creativity and beachfront bliss. Just shy of half of all of Uruguay's population calls Montevideo home, and the city is enjoying a resurgence, as its reputation as one of South America's essential destinations burgeons. Glorious colonial architecture has been repurposed to house cultural treasures - while glassy skyscrapers, modernist museums and twisted artworks spring up regularly across this vibrant, energetic city, which stands across the Rio de la Plata from Buenos Aires. Recognised as a UNESCO Creative City, there's rich intellectual history here, not to mention sultry tango - a dance form that the Uruguayan's claim as their own. With bright and breezy tree-lined streets, and refreshing salty sea breezes cooling its endless beaches, Montevideo is an incredibly liveable seaside city. La Rambla, the long and wide waterfront path, provides a welcome partition from the city's buildings and is a wonderful place to wander and relax on benches and sea walls. Having toed and froed between Portuguese and Spanish rule at the height of their colonial powers, the city and country is littered with fortifications and historical relics. Head to the central square Plaza Independencia to see the statue and mausoleum dedicated to Jose Artigas, who is known as the father of Uruguayan independence, which was achieved in 1825. You'll also be standing before an iconic Montevideo landmark, the beautiful Palacio Salvo's impressive tower. Mercado del Puerto is a taste of Uruguayan cuisine, blending mouth-watering influences from Brazil and Argentina - try juicy, fire-seared steaks, and tasty caipirinhas cocktails.

Passionate, and alive with an infectious crackling energy, the Argentine capital is a breathlessly romantic city, which blends old-world colonial architecture with a down-to-earth Latin American clamour. Famed for steamy tango interplays, and expertly seared steak slabs, a visit to Buenos Aires is a fiery fiesta for the senses. Parque Tres de Febrero is a 400-hectare oasis where 18,000 rose bushes bloom, and skyscrapers give way to still lakes and pretty paths of rollerblading locals. Mighty palm trees - that look like exploding fireworks - stand tall in Plaza de Mayo, the heart of this sprawling cosmopolitan capital of 48 barrios. The square has served as the stage for many fundamental events in this country's history, and the location where the seeds of independence were sewn continues to serve as the city's gathering point - and is a place for solidarity, rebellion and revolution. The presidential Casa Rosada's salmon-hued Palatial Palace borders the plaza, while nearby Museum Nacional de Bellas Artes houses the largest collection of public art in Latin America. Teatro Colon, the opulent 1908 opera house, is one of the world's finest venues - musical performance here take on an ethereal quality, with the exceptional acoustics transferring every quiver of bow, and tremor of vocal cord, to the audience in spine-tingling clarity. The gargantuan, precipitous terraces of Bombonera Stadium form another of Buenos Aires's incredible venues, and a wall of noise emanates from it when Boca Juniors take to the field. Juicy steak and punchy Malbec flow in the city's parrillas - steakhouses - while glitzy bars and thumping nightclubs

welcome revellers late into the night. It's not just the meat that sizzles here either - tango dancers fill milongas - dance halls - to strut passionately until the early hours. Sip steaming mate, the country's national drink, shop in covered markets, and explore Cementerio de la Recoleta - a city of grand graves and intricate memorials honouring presidents, politicians and notable Argentine heroes from history.

Days 17 - 19 Day at sea

Days at sea are the perfect opportunity to relax, unwind and catch up with what you've been meaning to do. So whether that is going to the gym, visiting the spa, whale watching, catching up on your reading or simply topping up your tan, these blue sea days are the perfect balance to busy days spent exploring shore side.

Day 20 New Island & West Point Island

Remote and raw, New Island lies to the west of the Falkland Islands, and the humble human population here is far outweighed by the extraordinary birdlife that resides along its craggy coastline. Out in the tempestuous wilds of the South Atlantic Ocean, the island is a sanctuary of animal life - with crowds of rockhopper penguins, wrinkled seals and stern-looking albatross among its many residents. The penguins of the Falklands are a sight to see, fooling and falling on the

beaches, before diving in and whipping through the waters. Home to five different species, including king penguins - who strut with their orange collars glowing against the pure white feathers of their chests. Sea lions, seals and elephant seals bark and lumber along the shoreline, while sleek orcas patrol and Peale's dolphins cut through the waves. Settlement Rookery's cliffs rattle with the sounds of crashing sea waves, and the echoing shouts of hollering black-browed albatross, king cormorants and rockhopper penguins. Enjoy gorgeous sweeping landscapes, littered with shipwrecks and sprinkles of colourful wildflowers. A warm welcome is guaranteed, especially when the local custom of smoko is served up - towering platters of cakes and biscuits with tea and coffee. Things haven't always been so peaceful here, however, and you can pay a visit to the battlefields and memorials of the costly war in 1982, when the British and Argentinians clashed fiercely over these islands.

A north-westerly outpost of the scenic Falkland Islands, you'll be welcomed ashore by the calls and cries of a huge colony of black-browed albatross. Indeed, the island was originally known as Albatross Island before being renamed to reflect its geographic location. While the albatrosses - that flash white feathers in the rugged cliffs above the waves - are the most well known residents, they are far from the only animal inhabitants of this remote, isolated land. A huge army of birdlife calls the island sanctuary home, overwhelming the tiny human population and sheep that roam West Point Island's grasses. Meet the rockhopper penguins who scamper and burrow along the coast's boulders, as well as the imperial cormorants who rest here in great numbers. You're also likely to encounter

Magellanic penguins during your explorations. Hike the island's quiet landscapes, and look out for endemic plants like Felton's flower carpeting the green interior. Decorated with some of the archipelago's most dramatic scenery, explore this wind-lashed, distant land of soaring cliffs and towering coastal precipices. Cliff Mountain is the island's standout - a towering sandstone monolith, and the archipelago's highest cliff, falling away to swirling waves below. Look out to the waters to spot Commerson's dolphin chasing each other around the island's wave-washed footprint. Whales also visit, as well as the fur seals who you may spot lounging around West Point Island's inviting shores.

### Day 21 Port Stanley

Despite it being a stalwart of Britishness, Stanley more resembles Patagonia than Portsmouth. But, despite the windswept, vast and achingly beautiful landscape of the Falkland Islands, don't be too surprised to find the odd pub serving ales and even fish'n'chips. While landmarks such as Christ Church Cathedral, with its whalebone arch are 100% local, there is a also good smattering of imported garden gnomes and Union Jacks to remind you whose territory you are really on. The Falkland Islands' ownership has long been a matter of controversy, ever since colonisation in the 18th century. At various points in their life they have been considered French, British, Spanish and Argentine. The Falklands War in 1982, despite only lasting for a short while, proved that the Brits clung to this remote outpost and the islands remain part of the

British Commonwealth today. Margaret Thatcher, under whom the war was masterminded, remains something of a local hero as can be seen in the street signs (such as Thatcher Drive). For those who want to dig deeper into the past, the Historic Docklands Museum provides lots of information on the chequered historical and political background of the Falklands. However, the true heroes of Stanley are of course the thousands and thousands of penguins. Five species nest here during mating season (including the rare rockhopper penguin). There are virtually no barriers between you and the wildlife; allowing for a truly interactive, authentic and totally unforgettable experience.

animals are in charge and humans come a distant second. Here you'll witness a cacophony of calling birds, natural set pieces like elephant seals clashing and thrashing, and crowds of colourful king penguins stretching out as far as the eye can see. An overseas territory of the UK, these isolated, subantarctic islands once formed a remote whaling centre - and you can still visit the former whaling stations. Nowadays the giants of the sea are free to cruise the icy waters uninhibited. Written into explorer history due to its links with Ernest Shackleton's tale of Antarctic exploration, shipwreck and survival, the Endurance's crew were saved when he reached the salvation of these shores in 1916 - before returning to collect the remaining sailors from Elephant Island. A museum commemorates the legendary mission, and you can see the memorial to Shackleton that stands over his final resting place on this fabled island. South Georgia's colonies of king penguins - with vivid bursts of yellow and orange around their necks - stand, squabble and curiously investigate, enjoying the isolated respite of this island. They're joined by smaller penguin species like Macaroni penguins, and other glorious birdlife like the majestic wandering albatrosses, which you can see gliding on gusts of wind, over the choppy waves.

### [Day 28 Elephant Island](#)

Promising thrilling adventure, legendary tales and immaculate Antarctic beauty, Elephant Island is perhaps Antarctica's best-known location. The exploits of its early explorers have immortalised this harsh, monochrome island in the tomes of human history. Believed to take its name from the elephant seals that early explorers spotted lolling on its rocks, the volcanic island was not properly explored until 1916 - when Ernest Shackleton and his men were stricken by the weather and sought salvation on its shores. Their story of survival, stranded in this barren land, is one of humanity's most evocative and inspiring accounts. Elephant Island is written deep into the legend of Antarctic exploration, and you'll discover Shackleton's tale for yourself as you arrive in the island's icy realm. The remarkable, slowly flowing Endurance Glacier - which you'll see on arrival here - takes its name from their ship, The Endurance. Visit the monument that stands to Shackleton, often surrounded by a migrating crowd of tiny gentoo penguins, at Point Wild - the spot where he and his 28 crew members camped for four and a half months of Antarctic winter. Eventually, Shackleton and a handful of courageous others sailed for South Georgia Island, before returning to secure the rescue of the remaining crew members. Aside from sailing amid breathtaking winter vistas, witnessing incredible fauna and feeling the sheer rush of an adventure to the unknown - one of

the true joys of any Antarctic cruise is to follow in the footsteps of the brave explorers who first sought out the alluring nectar of these dangerous, evocative landscapes. If this will be your first-time visiting Antarctica, read our blog explaining how you can prepare for the exploits ahead.

### [Day 29 Antarctic Sound](#)

Few voyages ignite the imagination like a journey down to one of the planet's most remote, extreme and enchanting wilderness, Antarctica. An adventure in its purest form, only a handful of people will ever be lucky enough to experience the majestic beauty of these monochrome landscapes first-hand. The Antarctic Sound will be one of your first encounters of this whitewash kingdom, located at the northerly tip of the Antarctic Peninsula - which sprawls up like a tentacle towards Tierra del Fuego, South America's most southerly point, otherwise known as the 'End of the World'. Taking its name from the first ship to brave the passageway between the peninsular and the Joinville Island groups back in 1902, the Sound is a raw, sensory assault of imposing iceberg slabs, broken away from the disintegrating Larsen Ice Shelf. Come face-to-face with stadium-sized islands of ice and meet the extraordinary birdlife that call this whitewash kingdom home. Watch on, as colonies of Gentoo penguins hop around, and cape petrels sweep overhead, as the continent's unique wildlife thrives around you. If you're planning your first venture into Antarctica, you'll want to brush up on your photography skills in advance, to capture this unforgiving continent in all of its unrestrained glory. Read our blog for tips

on how to ensure that your photos do justice to the adventure of a lifetime.

### [Days 30 - 33 Antarctic Peninsula](#)

The Antarctic Peninsula unravels upwards towards South America, reaching out a beckoning finger to the adventurous, who dare to explore this untamed realm. Stretching up from the heart of the world's southernmost continent, the Antarctic Peninsula lies a mere 620 mile from Tierra del Fuego and, for many, offers a spectacular first taste of the snow-blanketed landscapes and colossal ice sculptures, which make up Earth's least-explored continent. Unseen by humans until 1820 - a blink of an eye ago in relative terms - this is an adventure sure to make your hairs stand on end, as you experience the thrill of the truly unknown and extraordinary. The vast peninsula is sprinkled with research bases, which are at the frontline of human scientific endeavour, pushing to study and understand this unique landscape, its exceptional wildlife, and the impact that humans are having on this pristine continent. Witness cathedral-sized icebergs up close, and blue-hued glaciers, slowly slipping from imposing locations like Hope Bay. Blanched mountain peaks cover the peninsula, and you'll find thousands of adorable Adelie penguin pairs thriving undisturbed in this peninsula's unique setting.

The ice-coated Antarctic Peninsula forms perhaps the most accessible region of mainland Antarctica, lying a mere 480-miles away from South America, across the fabled waters of Drake's Passage. Lying close to the northwestern tip of the Antarctic Peninsula, separated by the Bransfield Strait, the South Shetland Islands fall under the jurisdiction of the Antarctic Treaty, suspending claims on their sovereignty. Several countries maintain research bases here, and with plump elephant seals, and crowds of Gentoo, Chinstrap and Adelie Penguins also calling the islands home, it can even feel a little crowded at times. King George Island is the largest and most hospitable island, hosting the majority of the research stations - some of which are populated all-year-round by tiny, hardy crews. Don't be fooled though, these islands offer extraordinary adventure in one of the most remote locations on earth. The triple peaks of Mount Foster tower above the archipelago, and you'll feel your heart pumping a little quicker, as you sail into the core of Deception Island's magnificent collapsed volcano caldera. Hike the lunar landscapes within, and even dip into the improbably warm, geothermally-heated waters of Pendulum Cove. Elephant Island, meanwhile, is written deep into the annals of Antarctic expedition legend, as the site where Ernest Shackleton and the stricken crew of the Endurance miraculously survived a harsh Antarctic winter, in 1916.

[Day 35 Drake Passage](#)

Sailing the legendary Drake Passage is an experience that few are ever lucky enough to experience. The southern tip of the Americas already feels like a wild enough environment - but the sensation of watching the distant cliffs of the peninsular known as the 'End of the World' fade into the horizon, is one that's equal parts epic, eerie and magical. Set sail, to slowly drop off the bottom of the map from Cape Horn, and voyage on an expedition down into the icy underworld of Antarctica. Drake Passage is an extraordinary voyage of romantic ocean faring legend, as you aim for Antarctica's icy realm. On arrival, skyscraper sized icebergs salute you, as you traverse the waters of this continent where snow and ice dwelling creatures like penguins and whales roam undisturbed. Your first sight of this most-unexplored place will most likely be the South Shetland Islands. Walk in the footsteps of some of history's greatest and bravest explorers as you explore famed, snow-covered landmasses like Elephant and Deception Island. If the journey across Drake Passage sounds daunting, don't worry - even in rough seas you're never alone, and will often be accompanied on this spine-tingling adventure by soaring albatrosses and maybe even a protective pod of humpbacks and hourglass dolphins or two. Converging warm and cool ocean currents attract some spectacular animal life to the passage.

[Days 36 - 37 Puerto Williams](#)

Puerto Williams is a Chilean city located on Navarino Island on the southern shores of the Beagle Channel. It claims to be the

"southernmost city in the world", however owing to its small size - 2500 residents approximately - the much larger Argentinean city of Ushuaia, which sits on the northern side of the same channel, also claims that title. The surrounding scenery is magnificent. The wild windswept mountains rise above the tree line and are regularly dusted with snow. The city itself has the dramatic backdrop called "Dientes de Navarino" (literally "teeth of Navarino"), which rival the famous Torres del Paine further to the north. The area was originally used by the Yaghan people, hunter-gatherers who despite enduring the harsh regional climate, could not weather the arrival of Europeans. The current city was established as a naval base in 1953 and honours the British-Chilean naval commander John Williams Wilson of the 16th century. Initially it served to protect territorial possessions and fishing rights of the area, as well as offering logistical support to Antarctic bases. More recently it has become a departure point for scientific and tourism trips to the Antarctic region. In contrast to the bustle and traffic of a very commercial Ushuaia, Puerto Williams offers a quieter, more relaxed experience. It charms the visitor with a small village feel, complete with rustic buildings and the homely smell of drifting wood smoke. A haven of peace at the end of the world.
