

ULTIMATE GALÁPAGOS HOLIDAY VOYAGE

Drawing from 50+ years of sharing the wild wonders of Galápagos with adventurous guests, this special action-packed holiday voyage allows for 10 days of exploration in the archipelago—our most in-depth Galápagos experience available. Step aboard our newest vessel, the National Geographic Islander II, with accommodations for just 48 guests, and see more islands, traveling from Santa Cruz south to Floreana, east to Española and San Cristóbal, and north across the Equator to Genovesa. Make the expedition as active as you choose with options to snorkel, hike, kayak, and paddleboard.

DAY 3-10: Galápagos Islands

Listed below is a sample of islands we may visit during our expedition. All ship itineraries are subject to Galápagos National Park regulations. (B,L,D Daily) Bartolomé: Climb the steps to the summit of this 300-foot volcanic wonderland for stunning views. Explore, swim and snorkel from the beach. You may even see Galápagos penguins, one of the world's rarest. Española: See swallow-tailed gulls, Española mockingbirds, Nazca boobies and, seasonally, the world's only population of waved albatross at this birdy paradise, also home to vividly colored marine iguanas. Watch sea lions on the wide sand beach, and snorkel offshore, at Gardner Bay. Floreana: Follow a trail past a rose pink-tinted lagoon frequented by flamingos. Snorkel among sea lions and abundant fish, or cruise along Champion Islet by Zodiac. Visit the famous barrel at Post Office Bay. Santa Cruz: Visit Puerto Ayora, the largest town and headquarters of both the Galápagos National Park and Charles Darwin Research Station. See the monument to Lonesome George, and tour the giant tortoise breeding corrals. See the giant tortoises roaming in the wild in the lush, green highlands. South Plaza: Sea lions greet us at South Plaza, an uplifted block carpeted in salt-loving succulents and teeming with wildlife, including a noisy group of bachelor sea lions and a population of land iguanas. Admire diverse seabirds swooping along high sea cliffs. Santa Fe: Snorkel and kayak in the secluded cove at Barrington Bay. On shore, a trail leads us through the largest cactus trees in Galápagos. The Santa Fe land iguana is found only on this island, where Galápagos hawks are also thriving once again. Santiago: Hike over the smooth pahoehoe lava and admire spatter cones, little miniature hornitos, and the wild riot of black lava at Sullivan Bay, the result an eruption recorded by passing buccaners in 1897. San Cristóbal: Land on a small, sparkling

beach at Punta Pitt for a hike up to a plateau where blue and red-footed boobies nest and you may see endemic Cristóbal mockingbirds and lava lizards. On this easternmost island, explore the celebrated expanse of powdery white sand at Cerro Brujo in the afternoon. Circumnavigate iconic Kicker Rock. Genovesa: Sail north across the Equator to the remote northern realm of the Galápagos, bathed in warmer tropical waters and home to the red-footed boobies, Nazca boobies, swallow-tailed gulls, great frigate birds and other nesting seabirds. Paddle and kayak along the cliffs of this flooded caldera, where Galápagos fur seals and sea lions haul out to rest.

DAY 11: Galápagos / Disembark / Baltra / Guayaquil

Bid farewell to the ship this morning and fly back to Guayaquil, where we transfer to Hotel del Parque, with the late afternoon and evening are free to explore. Ask your expedition specialist about Quito and other post-voyage options. (B)

DAY 12: Guayaquil / Depart
